

NATURAL HIGH

FENTANYL TOOLKIT

DISCUSSION GUIDE

Welcome to the discussion guide for the new PSA documentary, “Dead on Arrival.” In early 2021, the CDC announced that 93,000 citizens perished from opioid drugs in 2020, and that 70% were killed by fentanyl, driven mainly by counterfeit opioids and tainted drugs purporting to be something else. In 2022, 100K+ people died from drug overdoses again driven by fentanyl, and the fastest growing group is under 19.

“Dead on Arrival,” a short PSA film about fentanyl’s deadly role in the U.S. illicit drug market.

Research strongly supports frequent, ongoing discussions about the harms of substance use as a strong asset kids will take with them into adulthood. So, we encourage you to watch the film together as a group and have a discussion using the questions we created for you below.

DISCUSSION QUESTIONS

1.

What did you learn about fentanyl?

2.

What would you say to a friend of yours who is planning on trying a substance that might be laced with fentanyl?

3.

What would you say to a friend of yours who offers you a substance they swear is safe?

4.

What could you do to share the film and this message with your circle of friends?
